### Task 3:

Create a map where you can explore the selected dataset. Try to plot the map using some categorical at

```
[99]: wfrm.columns
```

```
[99]: Index(['RENEWABLES', 'NAME', 'STATUS', 'TYPE', 'Shape_Leng', 'Shape_Area',  
         'geometry'],  
         dtype='object')
```

```
[115]: wfrm.explore(columns=['geometry'], tooltips=[], cmap='RdYlBu')
```

```
[115]:
```
